

Notes Domino Social Edition Update

Prepared for

BLUG
Benelux Lotus User Group

Things Can and DO Change!

****Remember this event last year?****

IBM's statements regarding its plans, directions, and intent are subject to change or withdrawal without notice at IBM's sole discretion. Information regarding potential future products is intended to outline our general product direction and it should not be relied on in making a purchasing decision.

The information mentioned regarding potential future products is not a commitment, promise, or legal obligation to deliver any material, code or functionality. Information about potential future products may not be incorporated into any contract. The development, release, and timing of any future features or functionality described for our products remains at our sole discretion.

Continued Leadership for Notes & Domino

Highest quality dot zero release with incoming PMRs below 8.5 levels!

ICS Market Momentum in Simple Terms

- **75%** of the Fortune 100 have licensed IBM Social Software
- **30%** of the Fortune 100 have licensed IBM Connections
- **68%** of the Fortune 100 have licensed IBM Notes Domino

Notes

- Deploying OpenSocial components easier than ever
- Delete or modify existing online meeting links in calendar invitations
- Improvements to type-ahead drop down box
- Notes Browser Plug-in enhancement provides new ways to share application access (multi-user support) and share mail (group mail-in database)

iNotes

- AutoSave messages to Drafts folder
- Admins can now enforce a preference setting to allow or not allow attachments based on company policy
- Mail, Calendar, Contacts and Preferences are now fully accessible (WCAG 2.0 AA and Section-508 compliant)
- Improved deployability of the iNotes ActiveX control, which now supports deployment on standard desktops (locked down machines)

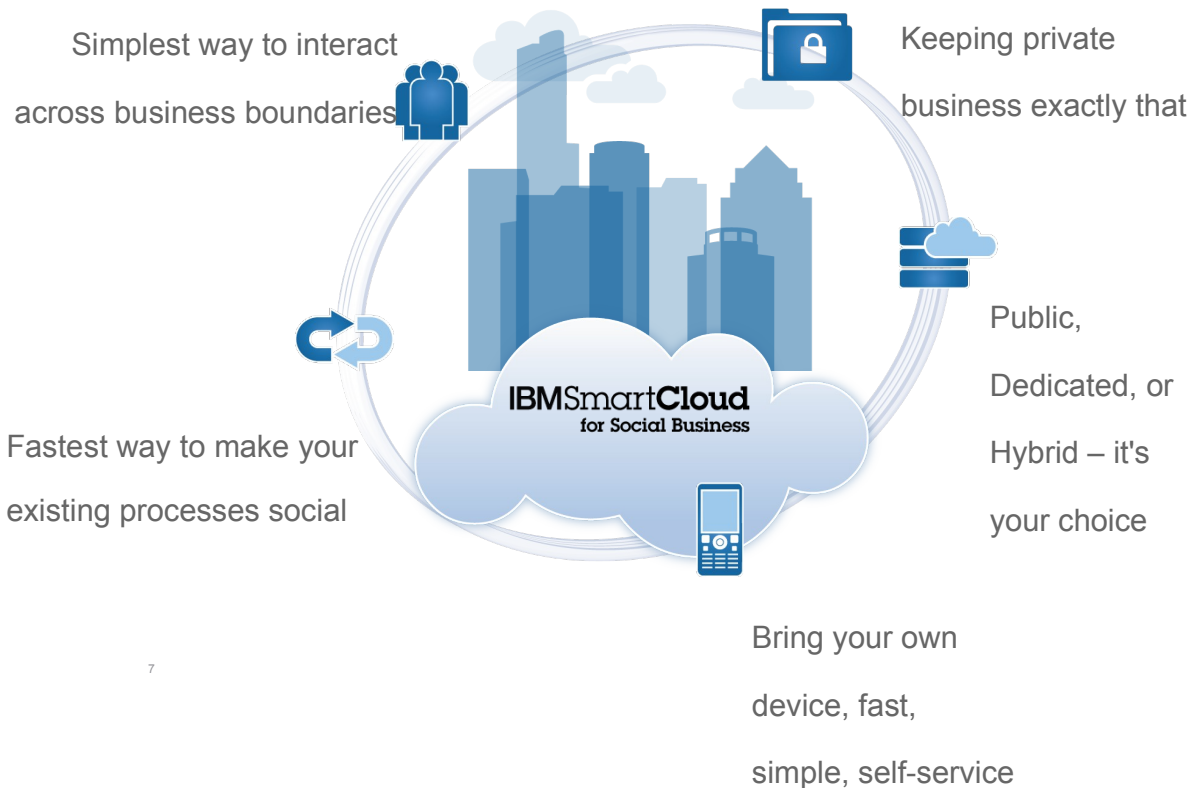

Notes 9.0 Results

- Open mail database performance improved by **20%** on initial open
- Subsequent opening of mail improved by **5%**
- Subsequent Notes start-up time improved by **6%**
- Opening of e-mail document improved by **5%**
- Switching tabs improved by **3%**

SmartCloud Notes

- SoftLayer acquisition
- Significant service update in September: GA8
- Web experience on par with on-premises iNotes 9
- Notes password sync when changed via browser
- Journaling for mail delivery and Notes session logging
- Custom forms extension files in web
- Additional SPAM management options
- Mobile: Traveler upgrade, BlackBerry 10, iOS ToDo's, Out-of-Office

7

Domino server installation and XPages

- Domino server install and XPages, now fully accessible
- IBM mail support for Microsoft Outlook 2013 (Limited Availability)

Notes Traveler

- Set Out-of-Office status while on-the-go from your iOS or Android mobile device
- Enforce a “Prevent Copy of Messages” restriction on iOS and Android devices
- Now add meeting details to calendar entries on all Traveler device types
- Like iOS and Android, attachments and inline images are now supported on Windows Phone/RT platforms

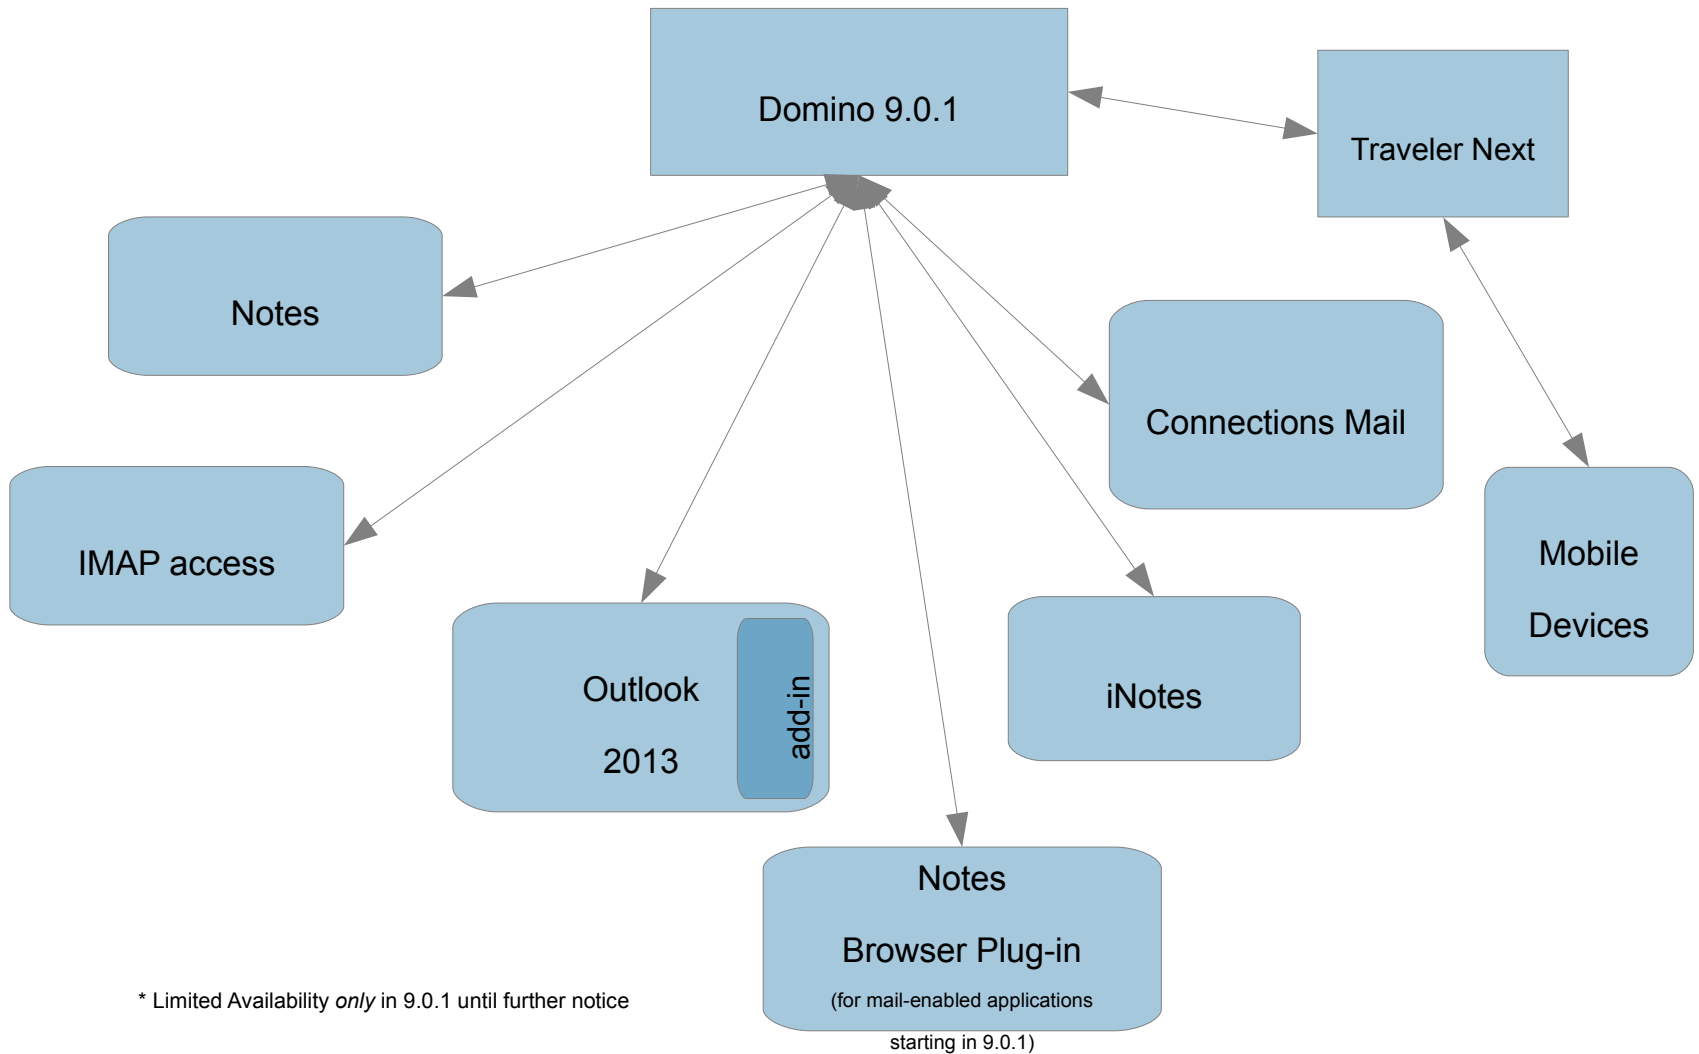

What is 'IBM mail support for Microsoft Outlook 2013?

- Code Name: “Project Hawthorn”
- Allows Domino 9.0.x and Outlook 2013 to communicate via Exchange ActiveSync (EAS)
 - Outlook 2013 natively offers EAS account configuration
 - Delivered as a capability vs. separate solution (i.e., IMAP, POP3, etc.)
- A lightweight Outlook 2013 add-in exposes additional functionality beyond what Outlook 2013 natively offers for EAS configurations
 - Leverages Domino REST services
- Capabilities
 - Mail, calendar, contacts, delegation, offline, search, Notes encryption, OOO, etc.
- Limitations
 - Outlook 2013 only (Win 7+)
 - No support for prior Outlook versions possible (only Outlook 2013 supports EAS v14)
 - No Mac support (EAS not supported for Mac Outlook offerings)

IBM mail support for Microsoft Outlook 2013

* Limited Availability *only* in 9.0.1 until further notice

Fully Synchronized Mail Experience

The screenshot displays two side-by-side windows. The left window is Microsoft Outlook, and the right window is IBM Lotus iNotes. Both windows show the same email inbox, demonstrating synchronization.
