HCL's statements regarding its plans, directions, and intent are subject to change or withdrawal without notice and at HCL's sole discretion.

Information regarding potential future products is intended to outline our general product direction and it should not be relied on in making a purchasing decision.

Information regarding potential future products is intended to outline HCL's general product direction and should not be relied upon for any other purpose. Information relating to potential future products is not a commitment, promise, or legal obligation to deliver any material, code or functionality, all products are made available for sale solely at HCL's discretion and shall be subject to relevant terms and conditions. Development, release, and timing of any future features or functionality described for our products remains at HCL's sole discretion.

Performance is based on measurements and projections using standard HCL benchmarks in a controlled environment. The actual throughput or performance that any user will experience will vary depending upon many factors, including considerations such as the amount of multiprogramming in the user's job stream, the I/O configuration, the storage configuration, and the workload processed. Therefore, no assurance can be given that an individual user will achieve results similar to those stated here.

# HCL Domino Marketplace

## 160 Domino solutions and growing

<https://hclsofy.com/domino>

The screenshot displays the HCL Domino Marketplace interface. At the top, there's a navigation bar with 'HCLSoftware', 'HCL Domino Marketplace', and 'Sandboxes'. A search bar is present with the text 'Search the catalog'. On the right, there are links for 'Resources', 'Request Access', and 'Sign In'. The main content area is titled 'HCL Domino Marketplace' and shows a list of extensions. The 'FreeStyler CMS' extension is highlighted with a red border. It includes a version number '8', a description 'With FreeStyler CMS you can manage any website content on every level.', and key features: 'Domino Technology' (fully based on Domino) and 'Low-Code Development' (simplifies website management). Other visible extensions include 'BCC MailMigrationEngine' (Exchange back to Domino) and 'Convey' (Windows software for data migration). A sidebar on the left offers filters for 'Optimized for' (Browser, Desktop, Mobile, Tablet), 'Platform' (AIX, Android, Linux, IBM i-Series, iOS, macOS, Windows), and 'Language' (Arabic, Chinese, Czech, Danish, Dutch, English, French, German, Greek, Hebrew, Hindi, Italian, Japanese, Kazak).
